

## What is the Virtual Model-Netics Instructor Training Program (ITP)?

The Virtual ITP is a program to train Model-Netics instructors utilizing a combination of live interactive online sessions and on-demand sessions. A hallmark of the Model-Netics ITP also continues to be our practice teaching sessions. These sessions are a crucial component in the core development of the Model-Netics instructor.

## What is the Program Schedule?

### Live Interactive Sessions

9:00 am – 12 noon CST (3.0 hours each)

2 sessions per week

Week 1 – MAR. 5, MAR. 7

Week 2 – MAR. 12, MAR. 14

Week 3 – MAR. 19, MAR. 21

Week 4 – MAR. 26, MAR. 28

**Practice Teaching Sessions** coordinated with instructor candidates based on availability

**On Demand Sessions**/assignments completed outside of interactive sessions

## Requirements for Model-Netics Instructor Associate Designation

Attendance of all sessions during the 4-week program is required for certification. Instructor candidates must successfully complete all on-demand course work and practice sessions by 04/19/24.

## Course Materials

**Model-Netics® Instructor Workbook** containing a detailed note page for each of the 151 models

**Access to the Online Model-Netics Instructor Resource Library** featuring an administrative guide for conducting Model-Netics classes together with detailed course content including materials

## Tuition Fee

**Regular tuition fee:**  
\$4,950 per instructor candidate
