

VIRTUAL MODEL-NETICS INSTRUCTOR TRAINING PROGRAM

- Starting APRIL 7, 2026

What is the Virtual Model-Netics Instructor Training Program (ITP)?

The Virtual ITP is a program to train Model-Netics instructors utilizing a combination of live interactive online sessions and on-demand sessions. A hallmark of the Model-Netics ITP also continues to be our practice teaching sessions. These sessions are a crucial component in the core development of the Model-Netics instructor.

What is the Program Schedule?

Live Interactive Sessions

9:00 am – 12 noon CST (3.0 hours each)

2 sessions per week

Week 1 – Apr. 7, Apr. 9

Week 2 – Apr. 14, Apr. 16,

Week 3 – Apr. 21, Apr. 23

Week 4 – Apr. 28, Apr. 30

Practice Teaching Sessions coordinated with instructor candidates based on availability

On Demand Sessions/assignments completed outside of interactive sessions

Requirements for Model-Netics Instructor Associate Designation

Attendance of all sessions during the 4-week program is required for certification. Instructor candidates must successfully complete all on-demand course work and practice sessions by 05/15/26.
